DETAILED ACTION

1. Claims 1 – 26 are presented for examination.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 11, drawn to client/server, classified in class 709, subclass 203.
 - II. Claims 12 – 25, drawn to application of database for multimedia, classified in class 707, subclass 104.1.
 - III. Claim 26, drawn to multimedia device drivers, classified in class 709, subclass 322.
3. Inventions I – III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as application of database for multimedia, application of database for multimedia, particulars.
4. Invention II has separate utility such as multimedia device drivers, particulars.
5. See MPEP § 806.05(d).
6. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2143

7. Because these inventions are distinct for the reasons given above and the search required for one group is not required for other groups, restriction for examination purposes as indicated is proper.

8. A telephone call was made to attorney Frank Chau on May 16, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

9. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

10. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
